Group Art Unit: 1614

STATEMENTS UNDER 37 CFR 1.821 (F) AND (G)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In Response to the Notification to Comply with Requirements for Patent Applications Containing Nucleotide and/or Amino Acid Sequence Disclosures, Applicants hereby submit a computer readable form and a replacement paper copy of the sequence listing for the sequences listed in the above-mentioned patent application. In accordance with 37 CFR 1.821 (f), Applicants hereby state that the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing of the substitute sheets.

Furthermore, the amendments included in the substitute sheets of the paper copy of the sequence listing are supported in the above-mentioned application. In accordance with 37 CFR 1.821(g), Applicants hereby state that the substitute sheets of the sequence listing do not include new matter. In accordance with 37 CFR 1.825(a) - I hereby state that the amendments included in the substitute sheets and compact disc of the Sequence Listing are supported in the application, as filed. I hereby state that the substitute sheets of the Sequence Listing do not include new matter.

The names of the Applicants have been added in the substitute sheets of the paper copy of the sequence listing and the computer readable form in order to conform with U.S. Patent laws that do not allow corporate entities to be applicants when individual inventors are available. Other than the Applicants' names, only the general information relating to the current application number and name and priority information of the previously filed PCT and EP applications have been added.

Respectfully submitted,

Dated: September 18, 2006
